

EXTRACTS FROM LETTERS WRITTEN BY STUDENTS FROM ILERET, KENYA JULY 2013

These are some letters written by children and parents in July 2013 whilst Liza Cronhelm and James Korie Haile were in Ileret doing more building and supplying the Michael Cronhelm Foundation Trust library and preschool with more materials.

Please note the grammar and spelling are as the children and parents have written their letters.

Dear Michael Cronhelm

I thank you to help us a learning place for pupls and I am happy for every days and every year.Thank for you to come very far distance and come back to help us.When I am in lower classes I ´m a very dull boy because the good these library books I became clever boy.

Henry Yierat Lorus

I am very happy the way you contributed and raised a fund for the establishment of this library in Daasanach land.I benefited form this library while schooling my fourth form.I read many high school books which are available by then,It later improved my grade during my final National examination and I got mean grade of B-,which can automatically take me to university. According to my knowledge with Michael Cronhelm Foundation Trust library nothing imposible in Daasanach land because of the avaiablity of all the crucial and necessary books in it.Both the primary and high school students are very grateful for you benefactors.

The library avaiablity also imprve the pre-unit and Nursery education. Because they provide the teachers, they also provide the food (school feeding programme) and now as the larger community they are very happy about it.

Then in future in my university education I will do a degree in Geology because it relate to the situation of my area especially archaeological history of Illeret.

Abrose SialeM Moroto

Michael Cronhelm Library is source of education in our small village of Illeret because of not enough teacher and the library is the only institution that provide us with education. In our nearest primary school our pupils are taught by unskilled teachers so they spend most of their time revising because they cant understand the unskilled teachers well.

Michael Cronhelm library also acts as a High School in our area. The High School has not any teachers so the library has helped us with a lot of books which act as our teachers.

The library has also helped the community at large because in the past more people became idol in that they engaged in some activites which are not healthy to our community like stealing, grapping, kidnapping and other things that are not helpful to the community and to our surprise we can now see that most people spend their time in the library reading novels and other story books, thus those acts which are disturbing people in the past stopped at once. In general Michael Cronhelm Memorial Library has help our students, our teachers and the community at large in many good ways.

Akkoy Norro Std 3

To the Benefactors

Thank you very much, I improved My English through this library. After reading story books both in Kiswahili and English. God will help all of you, I will encourage my fellow classmates. To read story books so that they improve in their studies just like I did. I want to be come a Doctor and based in Illeret Health Center. Thank you very much again.

Illeret Primary 17/7/ 2013

Dear Michael Cronhelm

Thank the following benefactors for contributing the Michael Cronhelm Memorial library. I have write leter to confirm how you are doing in library. The library it help me to read well and doing well. And the book in the library help more than the teachers. The book I like to help us, it is science math story and other book. During the library enter our communities, the pupils it pass the Kenya National examination to do well. And we are happy how the library it help.

Ang'olo Lokure

To the Benefactors

I Ang'olo Lokure I am very grateful to the benefactors of MCFT Library as they contributed to the construction and equipped with books.

Efrem Achali Liesho'o

Although I don't know how to read and write in English, I have a hope I will know more in this library.

In my class English and Mathematics are my best subject.

Surely this library help me as individual. When I was in primary it encouraged me to learn new things .When I was standard eight I always come here during my free time. I read more revision books and stories books and it gives me more effort to pass my final exams and get good marks. The library encourage more of our students in terms of education because it have more primary books they read and learn many new things from this library .We are lucky and we said thanks to the owners of the library to help us.

Efrem Achali Liesho'o

Dear Mr Michael Cronhelm /Madam

Receive my warm greetings. I am very happy what you done for us because that is what important for all.

I am also thanks alot a lot because of your helping needy people. Since that library you are started and building here in our side Illeret our communities are very decided about you. That means you are encouraging or attracting many students who are drop out of school. Now they are come back to school because that library which good for all people living Illeret desert area.

Class: Eight

I am so happy and grateful for your goodness of providing us with lots of books. Many pupils or students get knowledge from this library and it also helped many of our parent

for their adult education. Also this library has helped our young ones with their nursery education.

Many of our secondary or primary pupils have improved their Favourite Subjects. For example: I started my primary education in 2006 and I was not doing well in my class. I always scored less than 250 marks. In the year 2010 this library was set up and it helped me too. I pulled up my socks and performed well in my examinations.

From that time up to now I always scored higher marks than previously. So I thanked you too for your goodness. It has also helped our teachers to catch up some special points. From this books and taught us too.

James Korichar
Std 7

How Michael Cronhem Library help us.
I thank you for built us this memorial library. For built necessary library and also the children in their home their were hungry when they want in library they eat food in every lunchtime. Also the Michael Cronhelm library acts us to be the high community. And us we give thanks that also our community also going ahead.

How MCFT has benefited me as an individual. Since the inception of the library in Illeret I have found the best place to get access to books I usually admire or interested to read but do not get them easily. I have an adequate time to read. Through reading of various kinds of books in MCFT library I have expanded my understanding of many phenomenoms around the world.

I have good chance to interact with many intelect around the world through reading of many kinds of books written by various authors.

I have the right resources to teach my learners which are otherwise difficult to acess anywhere in Illeret.

MCFT has inspired me to have time schedule for my studies.

Everytime I read a new book I learn a new thing therefore since the inception of MCFT library everyday is a day to learn a new aspect of life and phenomenoms of the world.

MCFT is the best place I can do my research and get findings of many answers to questions not known to me with little understanding

MCFT has inspired me to teach others that is why I am teaching voluntarily

I thank Michael Cronhelm Memorial library it help us for our communities.The pupils were more in the school because the library it is built in our area and it have very special books.

Mother Sedhat

written by Ambrose Moroto

Our children get education and thus they get knowledge on their own.Sedhet says she has three children who are in Nursery School.She also said that her children help her by teaching them words like A,B,C,D

Mother's name: Aruba

Writers name : Ambrose Moroto

She said her children are doing well in the library because she says before the library was started in the area when her children were in the nearby primary school they were not accessible to education.She said her children can read and write.they even help in teaching her how to write her name.

Oiso Nyemeto

Std One

To the benefactors

Thank you very much all the benefactors by building the library.And I am also very happy about the way you equipped the library with a very beautiful pictures which always attract me.

We are happy and great thankful to you.I was just thought that a library is a building that we are going to read only some story books for lower primary whe I hear there s a library in Ileret.But it is a very big helpful to us as we as a students.Here in Ileret Primary we don't have such books which contain many things but we are lucky to found it in this library..This library is very helpful to us because when we are going to sit our examiniations, we are going to make more practise in order to pass in our exams. In fact there is alos some books in this library which is explain more than what our teachers always explain to us.

This is also give me an idea to know how benefit of library is and also I want to be a game warden when I grown up and I will make a library to a certain school because it is very helpful to pupils.

Thanksful again you are a great man because what you done here in our community.I don't now what I say about you because we are so happy and we will remember you because you changed us.

Class 7

I am so excited and greatfules for build us library. Provide us many books and get knowledge from this library.We thank all parent of Michael Cornel for building memorial library and God bless the work of your hand.When I grow up I need to be a teacher then I need to teach pupils how can this library can help me.The community has so happy ,happy as King.When I was in standard six I was busy to showing this memorial library. When it was completed in (2010) this memorial library was very important.The student are reading memorial library whole day.Help our community to build another library and many other things.

Nicholas Nyiria Yierika

I am very happy to study here in library since I was standard seven. When I finish my examination on standard eight k.c.p.c When the result came I was very happy and happy to my family, my school and the founder of the library of Michael Cornel library, science was my first subject followed by English and Mathematics. Without Michael Cornel library I would not make it. The most thing is to help us for build for us laboratory because we have books in library, some books like chemistry ,biology and physic it goes with practice. Thanks all the founders of Michael Cronhelm Library have a good heart of help for our community and we love you soo much and God bless you.

How Library help me and my community

Actually I am proud to Michael Cronhelm Memorial library because when I was in Standard six I was totally fulish but when library was built I started to improve in both reading and writing and became more powerful in terms of education.

The library has helped many people in our community. I was so happy hen I got average marks in KCPC (263) which is the national exams. Library has improved the ability and peoples minds because n the past childrens were not tough but when library was build I saw many children spending time in library spending the whole day. I actually give special thanks to Michael Cornel and I request our library to have many more book for high school students.
