Liza Cronhelm and Volunteer Group

ACKNOWLEDGEMENT/SUPPORT FOR FURTHER EXPANSION OF EL-BOKOCH LEARNING FACILITY

On behalf of myself and the greater people of Illeret and particularly the El-Bokoch community, I would like to appreciate in a special way, the aforementioned persons for their effort for building El-Bokoch primary school to its current status, including a library block that I got the privilege to open. Education is the number one priority for the Daasanach community. The area under discussion is not only remote but also marginal to the main administrative town. It is located on average 450km on road from the County Headquarter and lacks many social amenities.

The community met and offered 70-acre piece of land for El-Bokoch primary school, that was to be established through funding from Liza Cronhelm Et. Al. The rudimentary primary structure is in place as we speak, and completion is in the offing hopefully. We greatly acknowledge and appreciate once again all that has taken to reach this point.

Secondly, I do support the plan to expand the facility to include a secondary school. The location lacks a single secondary school and often children who excel in their primary education have to travel long distances to join secondary schools. This carries not only high costs to the parents but also many security risks along the journey. With the facility in place, a tremendous relief shall come in hand and therefore supported and recommended. We shall expect an upsurge in enrolment and more girl child education embraced by the community.

With few above remarks, I want to assure on behalf of the people who elected me, that my continued support and cooperation in the journey to realize the dream of attaining a High-school status of El-Bokoch Primary school.

Regards
